COVID-19 UPDATE

Important Information for MVP Members

MVP COVID-19 Vaccine Update

MVP Health Care® (MVP) remains focused on protecting your health and well-being. We are actively preparing for our members to receive the COVID-19 vaccine.

We wanted to let you know that the COVID-19 vaccine is covered under all MVP health plans and is free for all MVP members. There is no co-pay and \$0 cost-share when you get the vaccine.

Due to current limited supply, the Centers for Disease Control and Prevention (CDC) recommends that health care personnel, and nursing home and long-term care facility residents be the first to receive the vaccine, followed by workers in essential industries. As the vaccine supply increases, further recommendations will be rolled out.

Additional up-to-date COVID-19 and vaccine information may also be found by visiting the [CDC](#), [NYS Department of Health](#), and [Vermont Department of Health](#) websites.

If you have specific questions related to your health plan benefits or coverage, please call the MVP Customer Care Center at the phone number listed on the back of your MVP Member ID card.

Thank you for choosing MVP. We'll be there when and where you need us.
