Re: Telemedicine Benefit

The Board of Governors has approved, and the Association office is currently working with MVP to rollout, a Telemedicine benefit (**myVisitNow**) to our membership effective July 1, 2020.

This new benefit is not meant to replace visits with your Primary Care Physician, but to make health care more convenient when you need it. **myVisitNow** can be used for visits to a Physician, an Urgent Care Center, and/or the Emergency Department at no cost to you. You will have access to Doctors 24/7 from your computer, smartphone, or tablet. **To encourage use of this new benefit, the service is being introduced at no cost (\$0 copay) to the member.**

New MVP ID Cards will be mailed out from our office to everyone currently enrolled in the Group's Health Insurance next week introducing the myVisitNow benefit. For those who we have addresses for, marketing information will be also sent via email to get this message out to as many enrollees as we can.

If we have learned anything from the last few months, it is how important telecommunications is to us and we hope everyone will see this as a value-added benefit.

If you have any questions, please contact Donna Carney at 315-895-5303 ext. 17 or toll free at 1-866-498-4440. Stay safe and healthy!
